

JALIN
PROTECT

A NEW RANGE OF
CLOTHING AND
ACCESSORIES TO
SUPPORT THE
HOSPITALITY
INDUSTRY

Designed specifically with the needs of hospitality venues as they reopen their doors, we have considered how uniforms in all departments can be redefined so that both guests and staff can feel reassured while the level of high-quality service is maintained.

Our designers have developed a 'covering' concept that enables staff to layer Jalin Protect's garments over their own to provide extra protection for themselves and for guests. These designs are underpinned by a careful selection of fabrics, drawing on our experience in advanced textile technology.

We have used antimicrobial and moisture-resistant finishes where appropriate to enhance the safety of the garments, without compromising practicality; our range is sustainable, reusable and washable at high temperatures.

“Like all of us, luxury hotels are having to adapt to the new world. With Jalin Protect, we wanted to help them be prepared, be hospitality-strong and be ready to open their doors with confidence

JP-MSK-1
'SOCIAL STRETCH' MASK

The 'Social Stretch' Mask is designed for long-lasting comfort and the lightweight fabric has a moisture-resistant finish. The high-density stretch interlock weave is created with sustainability in mind as it can be washed repeatedly at 60 degrees. It has a secure nose bone and durable binding stretch ear loops offering an enhanced 'one size fits all' product. It can be customised with all-over sublimation print to form part of branding.

FABRIC	90%PL 10%EL
CARE	
Please wash before wear.	We advise washing your hands with soap before and after touching the masking.
Please wash after each use at 60°C/140°F.	This mask is NOT a surgical mask and does not block any virus or bacteria when used alone.
Please take care when putting on / taking off the masks, avoid touching your mouth, nose and eyes.	For more information on wearing face masks, please visit the World Health Organization website.
Always remove the face mask from behind the ears and avoid touching the front of the mask.	

Fully customisable can be printed in any design

NATURAL ORGANIC WELLBEING MASK

The 'NOW' (Natural Organic Wellbeing) mask is designed with optimum comfort in mind using a Certified Organic cotton jersey fabric. The added 'Wellbeing' comes from the fabric with Anti-Microbial, Anti-Bacterial, Anti-Fungal and Waterproofing finishing (which repels moisture droplets). The Natural and Organic fabric is breathable and stretchy and is created with sustainability in mind as it can be washed repeatedly at 60 degrees. Partnered with the design's secure nose bone and soft ear loops, it creates an enhanced 'one size fits all' product. It can be customised with embroidery to form part of your branding.

FABRIC	100% ORGANIC COTTON
CARE	
Please wash before wear.	We advise washing your hands with soap before and after touching the masking.
Please wash after each use at 60°C/140°F.	This mask is NOT a surgical mask and does not block any virus or bacteria when used alone.

‘COVER MORE’ WEAR

Our designers came up with the idea of providing layers of garments as a way of enhancing comfort and safety in an effective way. The coverall concept represents a new kind of need, paying attention to the smallest details of safety in a world with renewed priorities. The door team may welcome guests in a housecoat, restaurant service may need an apron that covers more of their clothing, while housekeeping staff may need a coverall garment that they can change easily as they move between rooms. Layering can play an important part in maintaining the highest hygiene standards.

JP-APR-1
COVER-MORE APRONS

The 'Cover-More' Apron is designed to protect more of the wearer. This Jalin Protect apron has a higher neckline, longer length and extra width that wraps further round the body, giving added coverage. It has a press stud adjustable neck strap, allowing the apron to be front-removable and eliminating the need to take the apron over the head. This durable fabric is hardwearing and perfect for aprons that need to be washed repeatedly at high temperatures.

JP-BAG-3 DISSOLVABLE LAUNDRY BAGS

The dissolvable laundry bags are a great solution for laundering all uniforms and accessories. It is a completely soluble and biodegradable product that substantially reduces the risk of contamination.

SIZE	ONE – 660MM X 840MM PACK ROLLS OF 25 BAGS
------	--

Perfect for laundry staff who are processing uniforms, it can be packed with several uniforms in a laundry basket.

It is a sustainable solution as no plastic waste is created.

Soiled linen is placed in the bag which can then be sealed with the attached cold water-soluble tie tape.

The unopened bag can then be put into the washing machine.

Minimum temperature required to dissolve: 40 degrees (warm water-soluble – dissolves in warm water wash). Recommended wash at 60 degrees.

JP-SPY-1 HYGIENE CONTROL FABRIC SPRAY

The Hygiene Control Fabric Spray helps to reduce the risk of clothing and other textiles spreading dangerous microbes by offering round-the-clock antimicrobial protection. We selected this easy-to-use product as part of Jalin Protect to be used between wears on items that would usually not be able to be cleaned so frequently, such as wool suits, coats and accessories.

SIZE	1L / COVERAGE 10m ² OTHER SIZE APPLICATORS AVAILABLE PLEASE CONTACT OUR SALES TEAM
------	---

CARE	
Please spray garment after wearing.	Once applied your textiles and fabrics will be protected 24/7 from harmful microbes and you should re-apply after laundering.
Spray evenly over soft furnishings and textiles and leave to dry for around 15-20 minutes.	Please use biocides safely and read directions on bottle for use before application.

The Fabric Spray has been proven to be effective against common bacteria.

It's also a powerful anti-viral agent and has been tested extensively which helps to reduce the risk of illness in high traffic areas such as hotels, restaurants, healthcare settings and offices.

EYEWEAR

With current advice being to avoid touching your eyes, we have two solutions: Our durable safety glasses are designed to fit snugly and are adjustable for universal fit. For staff that require full-face protection our safety visor a practical solution as it enables glasses to be worn underneath. Both our eyewear solutions are reusable and easy to treat with antibacterial cleaner

JP-GLS-1

TOTALLY TRANSPARENT GLASSES

We selected eyewear for safety and comfort. The Bollé Rush safety glasses product is a clean and clear style. It offers a great fit as the soft adjustable nosepiece sits lightly on the face, while the non-slip temples create a secure fit. The wrap-around design affords a maximum field of vision and a non-medical look.

CARE

Please wash before wear.

Please wash product after each use and before each wear.

Please take care when putting on / taking off the glasses and avoid touching your mouth, nose and eyes.

We advise washing your hands with soap before and after wearing the glasses.

This product is NOT for surgical use and does not block any virus or bacteria when used alone.
